Exercise B

Completed paragraphs will vary. A sample paragraph is provided.

During the Great Depression, banks, businesses, and stores closed. People lost their jobs and became penniless. Many stocks and bonds became worthless, too. Around the world, many countries were facing the same problems. England and Germany were affected by the Depression. In Germany, poverty created great misery and led to the rise of Adolf Hitler. The Great Depression and the widespread misery lasted until countries began producing war materials for World War II.
